

Use your vote to elect the candidate that will stand up for Hemel Town

# Adrian England's Election FOCUS

## 3 Reasons to back Adrian ENGLAND

### ✓ Local

Lives in Hemel Hempstead and works for East of England Ambulance Service which serves Hemel.

### ✓ Helps People

Adrian helped get recycling in flats, reports dangerous pavements & roads and helped residents in housing need.

### ✓ Local Plan

The plan is for 10,688 new houses in Hemel. That is too many. Adrian is against excessive numbers of extra houses.

## Adrian England Supporting Your Community

County spends nearly 80% of the Council Tax. Big spending decisions need to be brought closer to residents' attention. Getting things right means working hard to take account of local views.

Adrian England is already working with residents to target need and opportunity for road-safety and air-quality improvements in Boxmoor, Apsley and elsewhere in Hemel.

Adrian listens to and supports the community. Their concerns include the excessive numbers of planned new houses on the

green belt, dangerous parking and the privatisation of the Sports Centre.

Adrian has a record of action supporting the community. He has already helped lots of Hemel residents with housing issues, recycling in flats, recovering overgrown allotments and dealing with litter problems.

Adrian is pursuing community and county-partnership working. He has already met residents and Councillors, to find solutions to road congestion, a lack of parking, and road and pavement maintenance.

## A Healthier Hemel

From making sure Hemel has a hospital to be proud of to improving local air-quality, Adrian wants to support people's desire to live in a healthier town.

When elected Adrian would be part of a team that will be working to improve the lives of all residents.

Priorities to improve standards would include:

Making sure all vulnerable children have free school meals during the holidays.

Paying carers paid by the County Council a living wage.

Making sure the County Council gives equal recognition to both mental health and physical health.

# Election day is on Thursday 6<sup>th</sup> May!
